Steve Vincent

Web Developer

Results-oriented professional with over 4 years of experience and proven knowledge of JavaScript Bootstrap, React, Typescript, Node.js, Figma, Adobe illustrator, Photoshop & Aftereffects. Aiming to leverage my abilities to positively impact your company. Frequently praised as tenacious by my peers, I can be relied upon to help your company achieve its goals.

Experience

Dec 2021 - Jan 2023
Beetcode
Junior Full Stack Developer

- Used my experience with markup languages (HTML) to create static webpages.
- Used my experience with JavaScript, CSS, and React.js to optimize web pages for non-static websites.
- Built web and Native apps with a collaborative team. Engaged in responsive website scaling, code refactoring, version controlling, unit testing, etc.
- Maximized applications' efficiency, data quality, scope, operability, and flexibility.
- Used various ideas from distributed computing, large-scale design, real-time data processing, data storage, ML, and AI to solve challenging dataset problems.
- Managed, optimized, and updated PHP databases as necessary. Developed app integration with REST / SOAP and other APIs for Google Maps, social media logins, payment processors, and other services.

Jan 2019 - Dec 2022
Freelance/ Fiverr
Web Developer/ Graphics Designer

- Analyzed user needs to determine technical requirements.
- Worked closely with clients to obtain sign-off on functional specifications.
- Determined the best approach for website code development, meeting customers' current requirements and anticipated future enhancement needs.
- Integrated data from back-end services and databases.
- Collaborated with web content editors to facilitate website maintenance.
- Completed programming projects that complied with existing coding standards and design styles.
- Created client-satisfied graphics and successfully implemented them in website design

May 2021 - Nov 2021
Backdrop - Find Pretty Places
Junior Frontend Developer

- Learned new front-end programming languages and development tools and methodologies to perform tasks.
- Translated flat design files to clean, accessible, and interactive user experiences. Recommended and implemented performance improvements.
- Renewed domain name registrations. Wrote supporting code for web and mobile applications.
- Verified front-end code functionality across browsers and platforms.
- Worked closely with back-end developers to troubleshoot and resolve coding issues.
